Price Distribution (Histogram)

Shows price range of books.

```
In [3]: df['Price_GBP'].hist(bins=10)
plt.title("Price Distribution of Books")
plt.xlabel("Price")
plt.ylabel("Frequency")
plt.show()
```

Rating Distribution (Bar Chart)

Shows which rating is most common.

```
In [4]: sns.countplot(x="Rating", data=df)
plt.title("Rating Distribution")
plt.show()
```

Price vs Rating (Box Plot)

Shows relationship between price and rating.

```
In [5]: sns.boxplot(x="Rating", y="Price_GBP", data=df)
plt.title("Price vs Rating")
```

```
plt.show()
```

Rating Percentage (Pie Chart)

Shows rating proportions.

```
In [6]: df["Rating"].value_counts().plot.pie(autopct='%1.1f%%')  
plt.title("Rating Percentage")  
plt.show()
```

Price Distribution by Rating

Shows price variation for each rating.

```
In [7]: sns.violinplot(x="Rating", y="Price_GBP", data=df)
plt.show()
```
